

Beam Clamp Measurement Record

One record per assembly. Attach a measured sketch and the relevant drawing.

Enter units with every value. Write "unknown" or "not applicable" instead of guessing.

01 BUYER / SITE RECORD

RFQ / project / support tag

Company / contact / email

Date / revision / quantity / destination

Beam mark / member profile / sketch reference

Units / flange thickness at mounting point / width

Parallel or tapered faces / obstructions / access

Existing clamp / rod reference (if known)

02 DESIGNER REQUIREMENTS

Attachment position / rod direction / drawing revision

Load(s) + units / direction / design document reference

Complete rod thread designation / mating parts

Material / coating / exposure / required approvals

03 SUPPLIER CONFIRMATION - KEEP OPEN UNTIL REVIEWED

Proposed item / documented allowable flange range

Thread fit / engagement / installation document

Load evidence for the exact arrangement / reference

Included accessories / exclusions / deviations

04 ATTACHMENTS AND OPEN QUESTIONS

Measured sketch + mounting photo / attachment filenames

Unresolved question / responsible person / next action

RFQ preparation only. This form does not approve a product, load or installation.
