

Pipe Support Requirements Record

One record per assembly. Attach a measured sketch and the relevant drawing.

Enter units with every value. Write "unknown" or "not applicable" instead of guessing.

01 BUYER / SITE RECORD

RFQ / project / support tag

Company / contact / email

Date / revision / quantity / destination

Pipe reference / nominal size / actual OD + units

Insulation thickness + units / shield or saddle reference

Existing support / mounting arrangement / photo reference

02 DESIGNER REQUIREMENTS

Support function / support tag / drawing revision

Load(s) + units / direction / design document reference

Movement direction + travel + units / design conditions

Rod or framing connection / elevation / interfaces

Service temperature / exposure / required finish

03 SUPPLIER CONFIRMATION - KEEP OPEN UNTIL REVIEWED

Proposed model / supported geometry / insulation interface

Movement suitability / applicable load document

Included rods, nuts, shields, brackets / exclusions

Material / finish / inspection records / deviations

04 ATTACHMENTS AND OPEN QUESTIONS

Support drawing + schedule / attachment filenames

Unresolved question / responsible person / next action

RFQ preparation only. This form does not approve a product, load or installation.
